50	50' 3/8 anchor rope	Solid braid nylon rope from Salamander
1	Surprise Streamtech swag	Could be a Voormi shirt, vest, pull over, hat or some other such treat

What our customers have to say about us

It's been a solid year and half since I took delivery of my Steelhead and I couldn't be happier with it. After countless day trips and a handful of multi-days, I'm more in love with the boat than ever before. I've fished from every position on the boat, taken my toddlers out on their first floats, and even run Class IV whitewater while fully loaded. The whole experience of boating in the Steelhead is a night and day difference from when I used to rent NRS expedition raft packages.

Jeff Lee, Bozeman, MT

I just wanted to write to thank you for building the best boats out there! I took the Steelhead out for it's maiden voyage on the Yellowstone today and I absolutely love it! It far exceeded all the expectations I had for it. For a big boat it rows like a boat much smaller. It is more nimble than my old smaller boat even. It rows like a dream and moves around the river so easily. I love that it takes little to no effort to put it right where I want it on the river. Thanks again for building my dream boat! I can't say enough great things about it! It is so much fun! Thanks again!

John Wills - Livingston, MT

*Link, I wanted to drop you a quick note on my Boat. 1 year in and I'm even happier than I thought I would be....and I was expecting to be thrilled. It is in many ways the perfect platform to row, to maneuver, to guide, to tour, to transport, and especially to catch fish from. It combines the best attributes of both a drift boat and a white water raft and it is a cinch to row. People love to see it and I get comments all the time. You've built a unique and incredible craft and I am proud to row it. Thank you for building and backing up a great product. **Jim Dawson, Cameron MT***

Oh man, Link, this thing is AMAZING! Took it out yesterday for the initial ride from Moose to Wilson on the Snake. I rowed first, as I obviously was excited to see how she performed. And I was certainly the opposite of disappointed! She slides across the water like a hard drift boat, but punches eddy lines with confidence and unmatched stability. We were all amazed at how awesome fishing from the BACK seat is...I mean, what boat have you ever been in that you actually don't mind fishing out of the back?!! We love how high up you are back there, even while seated! Also love the height of the rower's seat as well...definitely easier to see the fishies from up there (of which there were many!)

Travis Goodman, Jackson WY

I want to again mention that I get so many compliments on my streamtech and people definately come over and check it out! You have done a great job with this and I am so happy to have one!

Brad Owens, Washington State
