

Deck Rails & Boat Covers

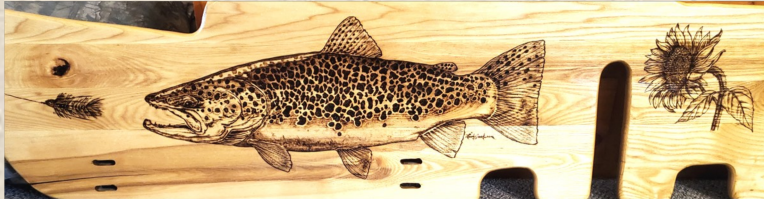

Solid Ash Wood Deck Rails: StreamTech ash wood deck rails enhance the boating experience substantially. Built of heavy solid ash and finished in marine Spar Varnish with non skid finish, they improve footing, provide a large work surface, offer dogs a great vantage point and improve getting in and out of the boat. And we love the rich look of wood. Available for all models. Left rail fits all StreamTech Boats and also fit the right side on boats built after July 2013.
SF \$390ea. / SH \$415 ea.

Fish Art Wood Burning on Rails: Art by Link Jackson; wood burned by hand. A real touch of Class for your boat. Each Rail is unique.
\$500 ea. (price includes a fish, more complex work will be by quote)

Bench Seat with Foam:

Also pictured here is the StreamTech plywood bench seat finished in Marine Spar Varnish with foam on top; includes mounting straps (pictured with yellow straps at front position). 16"x40" bench fits either SF or SH **\$245ea.**

Lean Bar Covers: Zip on covers to go over foam and wrap on lean bars. Made of heavy duty marine vinyl. These covers are tough, comfortable and look sharp.

Salmonfly: \$170 pair
Steelhead: \$170pair

Boat Covers: StreamTech Boat Covers have a custom fit specifically for our boats. They are built of tough marine grade materials that hold up under use. They feature full "sock" fit at the front, cam strap drawstring at the base
